VINEYARD

Fruit sourced from our 40 year old 12 hectare Dry Grown Vineyard. Our old vines are not irrigated; something quite unusual in these days of mass commercial production. Having smaller fruit fosters an intensity of the flavour, with most of the colour and tannin of the grape being concentrated in or near the skin. The characteristically cool climate of the district ensures slow ripening of the grapes, which also allows for the development of rich flavour and quality grape juice. Grown on ancient gravely loams, our old vines are all cane pruned and yield 2 tonne per hectare. Galafrey harvest their grapes from mid-March to late April depending on the season

VINTAGE COMMENTS

While a later than normal start to vintage, it was reminiscent of vintages 10 years ago. It has been so dry in previous years I think we all forgot what it was like to have a wet year! A solid vintage with later ripening than recent years. Low Baume with intense flavours shows promise for the whites and softness for the reds, with high quality fruit being produced. A hard but exciting vintage. Galafrey celebrates with their 40th Vintage this year.

WINEMAKING

The dry, cool to mild climate of the Great Southern region will produce classic Cabernet Franc, wines with great depth of flavour and structure. We endeavour through meticulous fruit selection and wine production sympathetic to the vintage conditions to produce a classic well-made Cabernet Franc. Produced from 40 year old vines we have 9 rows of Cab Franc. Fruit is mechanically harvested ripe and brought into the winery under cool conditions. 20 % whole bunch. Pressed into tank and keep on skins for 20 days to allow for the best extractions of flavour and colour. Once finished fermentation finished minimal filtration is given to allow the wine to be at full flavour and expression before bottling.
